

# Justin L. Ripley

Department of Physics, University of Illinois, Urbana-Champaign · 1110 West Green Street, Urbana, IL 61801, USA  
ripley[at]illinois[dot]edu · <https://jlripley314.github.io/> · Citizenship: U.S.A.

## Academic Employment

---

<b>Research Associate</b> , Department of Physics, University of Illinois, Urbana-Champaign	<b>August 2022-present</b>
<b>Research Associate</b> , DAMTP, University of Cambridge	<b>October 2020-June 2022</b>
<b>Research and Teaching Assistant</b> , Princeton University	<b>September 2014-July 2020</b>

## Education

---

<b>PhD, Physics</b> , Princeton University Advisor: Frans Pretorius	<b>September 2014-July 2020</b>
<b>BA, Physics</b> , Columbia University Minor in Mathematics Departmental honors in Physics, <i>summa cum laude</i> , Phi Beta Kappa	<b>September 2010-May 2014</b>

## Awards/Grants

---

<b>Hartle award</b> International Society on General Relativity and Gravitation (GR 22/Amaldi 13 conference)	<b>December 2019</b>
<b>Erwin H. Leiwant Scholarship</b> Columbia University	<b>September 2013-May 2014</b>
<b>John Jay Scholar</b> Columbia University	<b>September 2010-May 2014</b>

## Computational Experience

---

My Github account: JLRipley314, lists some of the individual computational projects I have worked on. I have also done some work for the GRChombo collaboration, which works on an open-source numerical relativity code.

## Teaching and Mentorship

---

<b>Mentorship of PhD students</b> Daniel Caballero (University of Illinois, Urbana-Champaign) *Abhishek Hegade K. R. (University of Illinois, Urbana-Champaign) Hengrui Zhu (Princeton University) *Maxence Corman (Perimeter Institute for Theoretical Physics) *Alex Pandya (Princeton University) *Tamara Evstafyeva (University of Cambridge)  *Led to publication.	<b>2023-present</b> <b>2022-present</b> <b>2022-present</b> <b>2021-2022</b> <b>2021-2022</b> <b>2021-2022</b>
<b>Mentorship of undergraduate students</b> Shikhar Kumar (University of Cambridge) Adam Wills (University of Cambridge)	<b>Summer 2021</b> <b>Summer 2021</b>
<b>Assistant Instructor, Princeton University</b> EGR/PHY 191, An integrated introduction to engineering, math, physics PHY 103/105, General Physics I Lab PHY 304, Advanced Electromagnetism AST 203, The Universe PHY 523, General Relativity (graduate course) AST 204, Topics in Modern Astronomy PHY 301, Thermal Physics	<b>Fall 2019</b> <b>Fall 2018</b> <b>Spring 2018</b> <b>Spring 2017, 2018</b> <b>Fall 2017</b> <b>Spring 2016</b> <b>Fall 2015, Spring 2016</b>

## Professional Activities

---

### University of Illinois, Urbana-Champaign

University of Chicago - UIUC joint meetings co-organizer

September 2023-present

### University of Cambridge, DAMTP

Friday general relativity seminar co-organizer

October 2020-June 2022

General relativity journal club co-organizer

October 2020-June 2022

### Princeton University Department of Physics

Member on the Climate and Inclusion Committee

September 2019-May 2020

### External PhD thesis reader

External thesis reader and committee member for Thanassis Giannakopoulos (University of Lisbon) September 2022

### Referee

Physical Review D, Physical Review Letters, Classical and Quantum Gravity

## Outreach

---

### Princeton citizen scientists

The Princeton Citizen Scientists is a graduate student led group at Princeton University that is dedicated to science policy and outreach at the local, state, and federal level.

President

June 2018–July 2019

Co-organizer for science advocacy trip to Washington, D.C. (article)

December 2018

Co-organizer for science and intersectionality workshop (link to schedule)

February 2018

Co-organizer for science “teach-in” event at Princeton public library (article)

October 2017

### Open labs

Open labs is a graduate student group at Princeton University that organizes “science cafes” where local high and middle school students hear talks given by graduate students about their research.

Treasurer and presenter

May 2018–February 2019

### Department of physics, Princeton University

I participated in several science outreach events organized through the department of physics at Princeton University throughout my time as a graduate student. events where I helped plan/organize some of programming are listed below.

Trenton science summer camp (helped plan and run several lessons over 2 weeks)

July 2018

### Interviews on “these vibes are too cosmic”

These vibes are too cosmic is a radio program run through Princeton University.

Interview about exotic compact objects

January 2019

Interview about antigravity

March 2016

## Refereed Publications

---

Link to all papers, including preprints: InSpire Hep

## Colloquia, Seminars, and Conferences

---

### Colloquia

1. Oregon State University, Corvallis, OR  
*Neutron stars: a window into dense nuclear matter*

**November 2023**

### Invited conference talks/seminars
