

# Justin L. Ripley

DAMTP, University of Cambridge · Wilberforce Road, Cambridge CB3 0WA, UK

lloydripley@gmail.com · <https://jlripley314.github.io/> · (619)-851-1226

## Academic Employment

---

**Research Associate**, DAMTP, University of Cambridge **October 2020-present**

**Research and Teaching Assistant**, Princeton University **September 2014-July 2020**

## Education

---

**PhD, Physics**, Princeton University **September 2014-July 2020**

Advisor: Frans Pretorius

**B.A., Physics**, Columbia University **September 2010-May 2014**

Minor in Mathematics

Departmental honors in Physics, *summa cum laude*, Phi Beta Kappa

## Awards/Grants

---

**Hartle award**, ISGRG (GR 22/Amaldi 13 conference) **December 2019**

**Erwin H. Leiwant Scholarship**, Columbia University **September 2013-May 2014**

**John Jay Scholar**, Columbia University **September 2010-May 2014**

## Professional Activities

---

**Seminar organizer** Friday GR seminar, DAMTP, University of Cambridge **October 2020-present**

**Committee member** Climate and Inclusion, Department of Physics, Princeton University **September 2019-May 2020**

**Referee** Physical Review D, Physical Review Letters

## Computational Experience

---

I have programming experience with C/C++, Fortran (77/90), Python, Mathematica. My Github account: JLRipley314, list some of the computational projects I have worked on/am working on.

## Teaching

---

### Assistant Instructor, Princeton University

EGR/PHY 191, An integrated introduction to engineering, math, physics **Fall 2019**

PHY 103/105, General Physics I Lab **Fall 2018**

PHY 304, Advanced Electromagnetism **Spring 2018**

AST 203, The Universe **Spring 2017, 2018**

PHY 523, General Relativity **Fall 2017**

AST 204, Topics in Modern Astronomy **Spring 2016**

PHY 301, Thermal Physics **Fall 2015, Spring 2016**

### Teaching Assistant, Columbia University

Math V2000, Introduction to higher mathematics **Spring 2014**

## Outreach

---

### Princeton Citizen Scientists

The Princeton Citizen Scientists (PCS) is a graduate student led group at Princeton University that is dedicated to science policy and outreach at the local, state, and federal level.

President

June 2018–July 2019

Co-organizer for science advocacy trip to Washington, D.C (article)

December 2018

Co-organizer for science “teach-in” event at Princeton Public Library (article)

October 2017

### Open Labs

Open Labs is a graduate student group at Princeton University that organizes “science cafes” where local high and middle school students hear talks given by graduate students about their research.

Treasurer and presenter

May 2018–February 2019

### Department of Physics, Princeton University

I participated in several science outreach events organized through the Department of Physics at Princeton University throughout my time as a graduate student. Events where I helped plan/organize some of programming are listed below.

Trenton science summer camp (helped plan and run several lessons over 2 weeks)

July 2018

### Interviews on “These Vibes are Too Cosmic”

These Vibes are Too Cosmic is a radio program run through Princeton University.

Interview on exotic compact objects

January 2019

Interview on antigravity

March 2016

## Invited Talks/Seminars

---
