Justin L. Ripley

DAMTP, University of Cambridge · Wilberforce Road, Cambridge CB3 0WA, UK lloydripley@gmail.com · https://jlripley314.github.io/ · Citizenship: U.S.A.

Academic Employment

Research Associate, DAMTP, University of Cambridge

October 2020-present

Research and Teaching Assistant, Princeton University

September 2014-July 2020

Education

PhD, Physics, Princeton University

September 2014-July 2020

Advisor: Frans Pretorius

B.A., Physics, Columbia University

September 2010-May 2014

Minor in Mathematics

Departmental honors in Physics, summa cum laude, Phi Beta Kappa

Awards/Grants

Hartle award, ISGRG (GR 22/Amaldi 13 conference)

December 2019

Erwin H. Leiwant Scholarship, Columbia University

September 2013-May 2014

John Jay Scholar, Columbia University

September 2010-May 2014

Professional Activities

Seminar organizer Friday GR seminar, DAMTP, University of Cambridge

October 2020-present

Committee member Climate and Inclusion, Department of Physics, Princeton University September 2019-May 2020

Referee Physical Review D, Physical Review Letters

Computational Experience

I have programming experience with C/C++, Fortran (77/90), Python, Mathematica. My Github account: JLRipley314, lists some of the computational projects I have worked on and are currently working on.

Teaching

Assistant Instructor, Princeton University

EGR/PHY 191, An integrated introduction to engineering, math, physics

Fall 2019 Fall 2018

PHY 103/105, General Physics I Lab PHY 304, Advanced Electromagnetism

Spring 2018

AST 203, The Universe

Spring 2017,2018

PHY 523, General Relativity

Fall 2017 Spring 2016

AST 204, Topics in Modern Astronomy

PHY 301, Thermal Physics

Fall 2015, Spring 2016

Teaching Assistant, Columbia University

Math V2000, Introduction to higher mathematics

Spring 2014

Outreach

Princeton Citizen Scientists

The Princeton Citizen Scientists (PCS) is a graduate student led group at Princeton University that is dedicated to science policy and outreach at the local, state, and federal level.

President June 2018–July 2019

Co-organizer for science advocacy trip to Washington, D.C (article)

December 2018

Co-organizer for science "teach-in" event at Princeton Public Library (article)

October 2017

Open Labs

Open Labs is a graduate student group at Princeton University that organizes "science cafes" where local high and middle school students hear talks given by graduate students about their research.

Treasurer and presenter

May 2018–February 2019

Department of Physics, Princeton University

I participated in several science outreach events organized through the Department of Physics at Princeton University throughout my time as a graduate student. Events where I helped plan/organize some of programming are listed below.

Trenton science summer camp (helped plan and run several lessons over 2 weeks)

July 2018

Interviews on "These Vibes are Too Cosmic"

These Vibes are Too Cosmic is a radio program run through Princeton University.

Interview on exotic compact objects

January 2019 March 2016

Interview on antigravity

Invited Talks/Seminars

11. Sapienza University of Rome, Rome, IT (virtual)

May 2021

Computing the second order gravitational perturbation of Kerr black holes

10. University of Oxford, Oxford, UK (virtual)

8. Kyoto University, Kyoto, JP (virtual)

February 2021

The classical evolution of binary black hole systems in scalar-tensor theories

February 2021

9. University of Virginia, Charlottesville, VA (virtual)

The classical evolution of binary black hole systems in scalar-tensor theories

February 2021

The classical evolution of binary black hole systems in scalar-tensor theories

7. University of Southampton, Southampton, UK (virtual)

The classical evolution of binary black hole systems in scalar-tensor theories

January 2021

6. University of Cambridge, Cambridge, UK (virtual)

Computing the second order gravitational perturbation of Kerr black holes

November 2020

5. Johns Hopkins University, Baltimore, MD (virtual)

Numerical computation of second order vacuum perturbations of Kerr black holes

November 2020

4. Princeton University, Princeton, NJ (virtual)

Classical modifications to Einstein's General Relativity around black holes

October 2020

3. Perimeter Institute, Waterloo, ON (virtual)

Exploring the nonlinear dynamics of Einstein dilaton Gauss-Bonnet gravity

April 2020

2. University of Illinois, Urbana-Champaign, IL

Testing General Relativity and the nonlinear dynamics of modified gravity theories

January 2020

1. Black Hole Initiative, Harvard University, Cambridge, MA
Nonlinear dynamics of Horndeski theories in spherical collapse

December 2019

Contributed Talks/Seminars (selected)

7. APS April Meeting, Sacramento, CA (virtual)

April 2021

Application of the modified generalized harmonic formulation to scalar-tensor gravity theories

6. BritGrav21, UCD, Dublin, Ireland (virtual)

Computing the second order vacuum perturbation of Kerr black holes

April 2021

5. APS April Meeting, Washington, DC (virtual) Second order perturbation of a Kerr black hole April 2020

4. Massachusetts Institute of Technology, Cambridge, MA Second order vacuum perturbation of a Kerr black hole

December 2019

3. GR 22/Amaldi 13, Valencia, Spain
Nonlinear dynamics of Horndeski theories in spherical collapse

July 2019

2. APS April Meeting, Denver, CO

Hyperbolicity in gravitational collapse in a modified gravity theory

April 2019

1. Numerical Relativity beyond General Relativity, Benasque, Spain Gravitational collapse in a modified gravity theory

June 2018
